ALTERNATIVE

Sony Bank

Excellent for international transfers. English app. Low ATM fees. Multi-currency account available. Apply online in 10 minutes.

TIP

Keep using Wise for transfers

Wise (formerly TransferWise) has the best EUR/USD to JPY rates. Use it alongside your Japanese account for international transfers.

WEEK 2-3

Set up PayPay digital wallet

Japan's most popular cashless payment. Link to Japanese bank account. Accepted at 90%+ of convenience stores, restaurants, taxis.

WEEK

3

Social Protection: Health Insurance + Pension

Both are mandatory by law for all residents in Japan. Do not skip this.

MANDATORY

National Health Insurance (NHI)

Apply at ward office. Cost: 5,000-25,000 JPY/month based on income. Covers 70% of medical costs. Bring: Residence Card + passport.

MANDATORY

National Pension (Kokumin Nenkin)

~16,980 JPY/month (2026). If low income, apply for full or partial exemption (menjo). Bring income documents to ward office.

AFTER NHI

Register with a local clinic

Find a "kakaritsuke-i" (family doctor) near your home. Most accept walk-ins. Google "clinic near me + your ward" — many have English staff.

BRIDGE INSURANCE

Keep SafetyWing until NHI activates

NHI takes 1-2 weeks to activate. Keep your travel/expat insurance active during this gap. SafetyWing Nomad Insurance: ~\$56/month.
